WE ARE HIRING

FOR A HEALTHCARE PROJECT IN KSA

POSITION	EXPERIENCE	QUALIFICATION
Project / Financial Analyst DAR-EPMO-02	15 years	Bachelor's degree in Finance, Economics, or Business Administration, along with experience in major projects. Candidates should possess expert analytical and financial skills, proficiency in relevant software, knowledge of Business Cases and the 5 Case Model, and excellent communication abilities.
Healthcare Planner DAR-EPMO-03	15 years	Bachelor's degree in Architecture from an accredited university, along with experience in large-scale projects. The candidate will be responsible for developing, analyzing, and implementing healthcare facility plans and programs. This role ensures that healthcare facilities meet community needs, comply with regulatory standards, and operate efficiently.
Medical Equipment Specialist DAR-EPMO-09	15 years	Bachelor's degree in Engineering or Biomedical with experience in large-scale projects. Candidates should excel in systems, calculations, materials, computer applications, work planning, regulatory standards, and construction practices. This includes expertise in the supply, installation, testing, and commissioning of both medical and non-medical equipment. Strong communication and administrative skills are also essential.
Sr. Contracts Administrator DAR-EPMO-11	17 years	Bachelor's degree in Quantity Surveying, Law, Engineering, Construction Management, or equivalent. Candidates should have experience in contracts management for large-scale projects, demonstrating expertise in all aspects of (sub) contract administration, bid evaluation, contractor performance monitoring, claims resolution, and international project operations, particularly in KSA.
Planning & Scheduling Section Manager DAR-EPMO-12	15 years	Bachelor's degree in Quantity Surveying, Engineering, Construction Management, Supply Chain Management, or a related field. Candidates should have experience in planning and scheduling, including managerial roles on large-scale projects. They should demonstrate advanced skills in schedule development, control, analysis, personnel management, and communication, along with comprehensive knowledge of engineering, procurement, contracts, and construction processes.
