Accountant

Job brief

We are actively seeking an experienced Financial Accountant to join our team. As a Financial Accountant, you will be responsible for monitoring all financial data, preparing accurate statements, and ensuring compliance with legal regulations. Your role will encompass budgeting, managing tax payments, performing internal audits, and providing consultancy to senior managers for cost and revenue analyses. By meticulously managing our financial records and supporting investment decisions, you will play a vital role in our company's success. Join us in maintaining financial transparency and driving our organization's growth.

Main Duties and Responsibilities:

- Gather and monitor financial data (e.g. sales revenues and liabilities)
- Prepare monthly, quarterly and annual statements (balance sheets and income statements)
- Forecast costs and revenues
- Manage tax payments
- Organize internal audits
- Prepare budgets (for the entire company and by department)
- Monitor and report on accounting discrepancies
- Conduct detailed risk analyses to assess potential investments
- Analyze financial trends
- Perform month-end and year-end close processes

Requirements and skills

- Proven work experience as a Financial Accountant or similar role
- Advanced knowledge of MS Excel and accounting software
- In-depth understanding of business bookkeeping procedures
- Solid knowledge of accounting regulations
- Excellent math skills with an attention to detail
- Time-management abilities
- Confidentiality
- BSc degree in Accounting, Finance or relevant field

Working Conditions:

(6) Days per week & (8) hours per day (Starting from 09:00 am till 05:00 pm).

Qualified Candidates Please

REQUIREMENT FOR A LEADING MNC COMPANY, IRAQ

CV SELECTION

CLADDER - 16

A cladder is a skilled tradesperson who specializes in the installation of cladding materials on buildings as well as Shelters

The main role of a cladder is to install and maintain the exterior surfaces of a building, which could include metal, glass, stone, or other materials.

The cladder must be able to interpret technical drawings and specifications to determine the best materials and methods for the project.

They must have knowledge of different types of cladding systems and be able to choose the appropriate materials for the building's needs,

Taking into account factors such as weather conditions, thermal insulation, and aesthetic considerations.

The cladder must also be able to accurately measure and cut materials to fit the building's dimensions and contours.

In addition to installation, a cladder is responsible for maintaining and repairing cladding systems to ensure their longevity and integrity.

They must also follow safety procedures and regulations to ensure the safety of themselves and others on the job site.

Overall, the role of a cladder requires a high level of technical skill, attention to detail, and a commitment to quality workmanship.
