KEY RESPONSIBILITIES:

- Develop, modify, and maintain detailed BIM models using Autodesk Revit for MEP disciplines, including integration of Point Cloud data.
- Create accurate 3D models and detailed 2D drawings for commercial, residential, and industrial projects.
- Collaborate closely with project engineers, architects, & construction teams to ensure design accuracy & compliance with project requirements.
- Maintain BIM standards, templates, and guidelines in line with company protocols and industry best practices.
- Extract schedules, quantities, and other data from models to support cost estimation and project planning.

Should have knowledge or experience in Revit, AutoCAD. You will be responsible for creating, modifying, and coordinating BIM models for various commercial, residential, and industrial projects, ensuring smooth collaboration with design and construction teams.
